StarCapture Mobile is a revolutionary solution specially created for your mobile salesforce to help drive in more contracts and customers. Certified by Microsoft to run on Windows 8.1, this solution helps you to increase mobility, impact your sales force and ultimately streamline your revenue.

Impress your customers with a hands-on application that will provide a great user experience and allow your salesforce to start personalized sales processes based on real data collected regardless of the client's location.

How does it works?

StarCapture Mobile will amaze your salesforce and your customers will love even more doing business with you. Offers results a great user experience. Using the new features of Windows 8.1 operating system for tablets and computers (PC's or laptops) and the power of StarCapture, an enterprise grade data capture system developed by Star Storage, customer data immediately get recognized directly from photos taken with a mobile device and are used to automatically fill-in documents such as offers, contracts, and enrollment packages.

Furthermore all captured data are integrated with content management systems existent in your company, so that you can process them more efficiently, depending on the specifics of each activity.

Powerful characteristics to drive more sales:

- ✓ user friendly interface - can be used by end customer directly
- ✓ configure sales packages and publish them to the entire salesforce
- ✓ manage devices, users and permissions
- ✓ manage salesforce assignments
- ✓ salesperson individual activity reporting and monitoring
- ✓ automatically updates from central server
- ✓ works offline if needed

Who can use it?

Any company, regardless the industry, which wants to build a powerful and mobile sales force, in order to be present in the field by interacting directly with the final customer.

No matter if you work in insurance, sales, distribution, health or any other field involving direct interaction with the client application, StarCapture Mobile is for sure the best choice for your business success! Learn more now from Star Storage experts!

Availability

StarCapture Mobile application is available both as a service, in cloud on monthly subscription basis and on premise directly to your company headquarter, through installation and integration with the actual content management system. Forget about time consuming configurations or long term deployments!

Your sales force has now access to a mobile office which will allow them to increase the number of signed contracts and to attend customers regardless of their location.

With StarCapture Mobile there is no need to reintroduce data in different content management systems and create an updated data base with real data to quickly bring you a larger number of customers and streamline your revenue! **Call us today** to find out more!
